CITY WILL GET PARK EAST OF SCHOOL HOUSE

Trustees Authorize Payment of Cost of Moving Booster Pump

That the park area immediately east of the high school building will be dedicated to the city for park purposes now seems assured. City Engineer Jessup Tuesday night was authorized to proceed with negotiations with the Torrance Water, Light and Power company for the removal of the booster pump now located on the property. The trustees agreed that the cost of removal should be borne by the city. It is estimated that this, together with the cost of installing the pump in its new location, will be about \$1000. Trustees declared the belief that it would be worth that much money for the city to obtain the land for park purposes. The other costs incident to the removal and installation of the pump will be borne by the water company to the extent of about \$1000.

Pass School Stop Ordinance; To Use Signs In Streets

Improving upon school stop systems in vogue in other cities, the Torrance board of trustees Tuesday night decided to instruct the police to place standards in the middle of streets warning motorists of their approach to stop zones. It is probable that older students, under the supervision of police, may be detailed to set out and take in the signs. The trustees passed the ordinance creating the stops on Carson street and on Arlington street at 220th. The pavements will be painted. The signs will stand in the streets only during hours in which pupils are going to or returning from school.

Mrs. R. R. Howe has recovered from a recent illness.

Mrs. Louise Whitney has returned to her home in Sawtelle after a week's pleasant visit with Mr. and Mrs. Webb of Androo avenue.

VISTA HIGHLANDS
